

Corridor Productivity Pack

- Content pack for AutoCAD Civil 3D corridors
- Powerful subassemblies made from Subassembly Composer
- Ready for import into Civil 3D

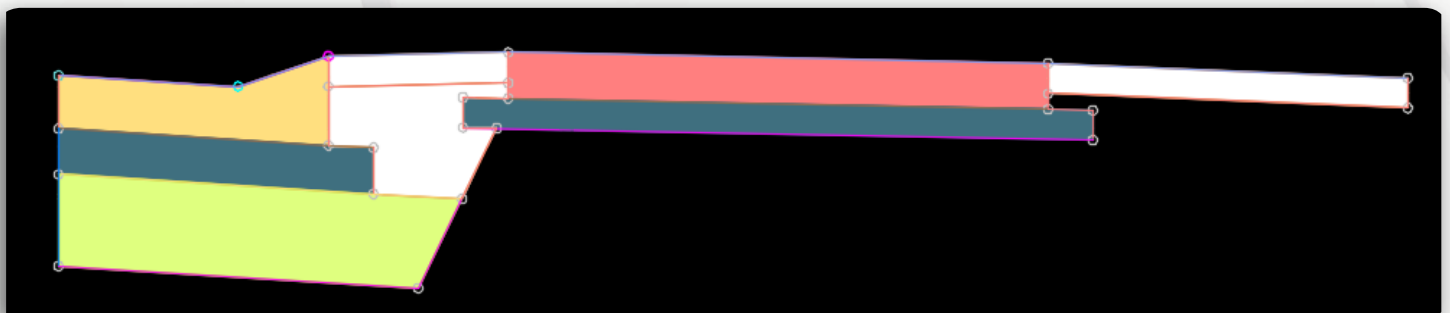

Features

- Built to realistic geometrics
- Full Targeting capability
- Editable in Subassembly Composer
- Customizable codes for detailed cross sections
- Detailed Help files
- Customizable Codes for quantity takeoff

Included Subassemblies

1. Multi Layered Lane
2. Multi Layered Lane with Mark Point
3. General Curb
4. MNDOT Curb
5. MNDOT Curb with Sidewalk
6. Sidewalk with Boulevard
7. Sidewalk with Boulevard From ROW
8. Link Slope to Surface
9. Link Width and Slope
10. Link Slope with Vertical Deflection
11. Link Slope to Elevation
12. Link to Mark Point

Side	Right
Curb: Style of (MnDot)	B
Include Sidewalk	Yes
Calculate Common area	Yes
Curb: Gutter Slope	-6.00%
Curb: Gutter Width	_24
Curb: Bottom Slope	-6.00%
SubBase: Depth	1.00'
SubBase: Extension	1.00'
Base: Depth	0.50'
Base: Extension	0.50'
Boulevard: Width Inside	4.00'
Boulevard: Slope Inside	2.00%
Boulevard: Top Soil Depth	0.62'
Cut Slope of Common Area	0.50:1
Sidewalk: Width	6.00'
Sidewalk: Slope of	-2.00%
Sidewalk: Thickness	0.50'
Sidewalk: Base Depth	0.33'
Sidewalk: Base Extention Inside	0.50'
Sidewalk: Base Extention Outside	0.50'
Boulevard: Width Outside	4.00'
Boulevard: Slope Outside	-4.00%
Codes: Link, Inside Vertical Base under Curb	None
Codes: Link, Inside Vertical SubBase under Curb	None
Codes: Link, Common area	0
Codes: Links Outside Blvd vertical links	None
Codes: Shape, Base Section	Base
Codes: Shape, SubBase Section	SubBase
Codes: Shape, Common or Back Fill Area:	None
Codes: Shape, Base Section under the Sidewalk	Base
Codes: Shape, Material for Boulevards	Topsoil
Codes: Shape, Material for Sidewalk	Sidewalk
